NATURAL RESOURCES -- FORESTRY AND PARKS

Forestry Education Curriculum

Motion:

Move to direct DNR (in cooperation with the Wisconsin Center for Environmental Education and the College of Natural Resources at University of Wisconsin - Stevens Point) to develop a Kindergarten through twelfth-grade forestry education curriculum to be implemented in Wisconsin schools.

Further, increase the surcharge on the sale of state-produced nursery stock from one cent to two cents in 2001-02, and to three cents in 2002-03. Specify that all surcharges collected be dedicated to forestry public education and awareness programs. In addition, delete the requirement that the existing one-cent surcharge be appropriated for the DATCP gypsy moth eradication effort. Delete the associated DATCP continuing appropriation (\$213,200 annually) and instead provide 220,000 \$200,000 SEG from the forestry account of the conservation fund to support DATCP gypsy moth eradication efforts.

Create a new appropriation that would authorize the expenditure of the surcharge revenue by DNR to contract with University of Wisconsin-Stevens Point for the development of a Kindergarten through twelfth-grade forestry education curriculum. In 2001-02, \$300,000 of the revenue generated from the surcharge would be deposited to this appropriation. Beginning in 2002-03, one-half of all revenue from the surcharge would be deposited (estimated at \$318,700).

In addition, create a second continuing appropriation that would authorize the expenditure of the surcharge revenue for public education and awareness efforts to enhance public understanding of the value of sustainable forestry, including support for the Milwaukee County Grounds Forestry Education and Awareness Center, school forests, and educational tools and programming developed by the Wisconsin Forest Resources Education Alliance. In 2001-02, the difference between the actual revenue received from the seedling surcharge and \$300,000 would be deposited to the appropriation (estimated at \$125,000). Beginning in 2002-03, one-half of all revenue from the surcharge would be deposited (estimated at \$318,700).

Note:

In 1999-00, over 21.2 million seedlings were distributed by DNR. The 1¢ per seedling surcharge would have generated approximately \$212,000 for DATCP gypsy moth suppression efforts. This motion would replace the seedling surcharge as a source of funding for DATCP gypsy moth suppression efforts with an appropriation from the forestry account of \$200,000 SEG annually. Increasing the surcharge to 2¢ per seedling in 2001-02 is estimated to generate approximately \$425,000. Increasing the surcharge to 3¢ per seedling in 2002-03 is estimated to generate approximately \$637,400.

7
[Change to Base: \$1,036,000 SEG and \$638,400 SEG-REV]

[Change to Bill: \$1,036,000 SEG and \$638,400 SEG-REV]
